Sequestration Information

The threat of sequestration, or reduction in federal funding, is real. Congress' lack of ability to put together a budget deal could cause a severe cut to education and other areas. AESA purchases lobbyist help from Noelle Ellerson at AASA who has put together a really good piece of information to check out what the impact of implementation of sequestration would be to you and your districts - check it out! Noelle says, "Here is a link to the sequestration toolkit, which includes the sequestration invoice and letter that members can use to raise awareness about the impact of sequestration with their members of Congress: <http://aasa.org/aasablog.aspx?id=24230&blogid=286>
