Dear Member,

Member Request

Maricopa County ESA is mandated by Arizona Statute Title 15-302-11 to access to and use of all type of data at Arizona Department of Education. However, we have to follow the same procedure and steps that other data users have to go through to request data from the ADE. Thus, we are now in search of a data sharing agreement/model between other ESAs and their respective states' DOE. Does any other state have such an arrangement? We would be grateful if anyone could share any agreement / model by other ESAs that might be useful for MCESA.

Thank you very much.
