Legislative Update

In the wake of the recently passed ESSA, representatives from ESAs around the country will be gathering in D.C. next week to hammer out the 2016 legislative positions. Each year, AESA brings in state representatives to meet with folks on the hill and forge our position on new topics and reinforce our work on current issues. Watch for this updated platform to come out soon.

Save the Date - Summer Leadership Conference

July 11-13, 2016 - Seattle, WA

The Summer Leadership Conference registration is not open, but we wanted to remind folks of the date for this professional development event for leaders. We hope you will be able to attend.

New Business Member - Data Business Systems

Data Business Systems has been addressing the underserved logistics of payments in K-12 schools for almost 20 years. We currently serve over 7,000 schools, and 4 million students, nationwide. We offer a complete set of solutions that easily integrate to your member district Student Information Systems and accounting software to manage fees, lunch payments, tuition, activities, childcare, fundraising, and more.

Data Business Systems (DBS) differentiates ourselves by delivering a single source for all your customer's payment needs, in addition to online payments, electronic forms, event registration and ticketing, online free and reduced application management, and face to face payments with credit cards. We do this in an effort to take cash out of schools, eliminate manual entries with multiple systems, mitigate loss, and we offer the most complete reporting and reconciliation tools available anywhere.

AESA, 53 Hotchkiss Grove Rd., Branford, CT 06405-5409
