

eWalkThrough®

Digital System for Instructional Leadership

What do we want to see in every classroom, in every building, every day, that makes a difference in student success?

"The eWalkThrough® observation system is a research-based strategy to improve classroom instruction by providing a forum for reflective practice. ...it provides administrators with consistent language for engaging instructors... in practice-focused conversations."

*Sue Givens, Superintendent
El Dorado Public Schools. KS*

Instructional leaders can now access a customized system to:

- Observe instruction in real-time
- Collect, analyze, and archive data
- Deliver instantaneous feedback to teachers

#eWalkThrough in Action

- Data to nurture self-reflection & collaborative dialogue
- Data to metamorphose professional learning into differentiated, personalized support
- Data to provide evidence-based feedback for growth
- Data to transform instructional leadership

#eWalkThrough Results

- Quality of teaching improves
- District initiatives are actualized
- Student achievement increases
- College & career readiness becomes a reality
