*We at AESA recognize the challenging times that we all saw in 2021, and we continue to face those same challenges at the beginning of 2022. While we remain optimistic that the grip of the pandemic will be lessening with time, we must continue to plan in the best interests of our members and business partners. We are planning to have live events in 2022. With that said please contact Chris Rooney, AESA Director of Business Services for business partnership, sponsorship, and general information about working with AESA.*

## WHY CONSIDER A RELATIONSHIP WITH AESA?

There are 553 Educational Service Agencies (ESAs), with over 200,000 employees in 44 states. AESA is in the position to reach 11,700 **(79%)** of the public school districts, 22,710 **(83%)** of the private schools, 2,160,955 **(79%)** certified teachers, and 2,018,888 **(80%)** non-certified school employees, and well over 40,732,954 **(80%)** public and private school students. This includes administrators, administrative support staff, instructional coordinators, principals, assistant principals, school librarians and support staff, instructional aides, guidance counselors, and other support and service staff members. *Source: U.S. Department of Education, National Center for Education Statistics, Common Core of Data Survey.*

## BENEFITS OF PARTICIPATION WITH AESA

ESAs are in face-to-face contact with nearly every superintendent and LEA key staff of local school districts on a weekly/monthly basis. As a result, ESA staff is acutely aware of the needs and problems faced by local public school districts, as well as private and parochial schools in their area along with other youth service agencies.

One of the most critical responsibilities that AESA has is to ensure that ESAs and schools have access to the best educational products and services available. Therefore, AESA offers Business Opportunities to companies wishing to join and/or partner with AESA and its members. AESA also makes available, separately or in conjunction with the business levels, opportunities to participate in and sponsor a variety of additional “Marketing Opportunities” to help maximize exposure and brand recognition.

There are a variety of participation opportunities available with the AESA. In the following pages, you will see specific benefits offered at each participation level. Working with AESA offers a level of access and visibility not afforded by other national associations.
